FT116 Wrench

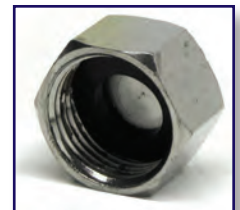

FT110AB Double Flusher

FT116	Wrench-Taprite & Perlick probe
FT108	Single flusher for single hole keg valve taps
FT110AB	Double flusher for single hole keg valve taps
FT109S	Double flusher adaptor. Beer thread ends permit two single flushers to be coupled together to form a double flusher
FT874C	Cap and washer-used on the male beer thread end of a single flusher to convert it for series tap cleaning
FT101L	One oz. can of probe lubricant-after cleaning tap probes should be relubricated (sparingly) with this odorless, tasteless lubricant
FT938	8 oz. tin of probe lubricant
FT115BA	Series cleaning adaptor. When a series system is to be cleaned back flushing through faucet and taps; this adaptor should be used with FT108 single flusher and FT874C cap to hold the probe check valves in the open position
FT85-117	Ball lifter-the insertion of this device into the bottom of the tap probe lifts the ball check valve, permitting cleaning from the faucet through the tavern tap.
FT872	Elbow fitting for FT86P, FT86 taps
FT86-12	Wrench, probe & beer hex nut

FT938 Probe Lube
