

Tea Towers  
(Non-carb Dispensers)

## Tea Towers (Non-carb Dispensers)

Taprite non-carb dispensers, for post-mix beverages, provide superior ratio control and superior reliability in a robust format that is easy to install and service. No graphics are included with the unit to allow for easy brand customization. They are shipped with drip tray, base, and fittings, and are designed for use with bag-in-box or fresh brewed tea concentrate.

### Features

- No electricity required
- Superior ratio control and reliability
- Flow rate 1.5 - 3.0oz per second at 3:1 - 7:1 ratio
- No water regulator necessary up to 100 PSI
- Easy to install, service, and sanitize
- Mixing at nozzle limits contamination
- Removable nozzle and diffuser for cleaning

### Available sizes

- One (1) valve scalloped
- Two (2) valve scalloped
